# LOCAL BREVIETIES.

A private picnic party went down to Cold Springs today.

Mr. D. R. Hosterman returned from his trip to the far west last night.

Dr. Jay W. Morrison returned from a prolonged and pleasant trip to Detroit.

Randolph Coleman, esp., went to London, O., on professional business today.

Mr. D. M. Martin, of Osborn, father of Oscar T. Martin, esp., is in the city today.

The side-walks that have grass on either side, has been called "whiskers" side-walks.

A car load of mules passed through this morning, en route from Columbus to Cincinnati.

Professor H. R. Geiger, of Washington, D. C., connected with the Smithsonian institute, is in the city.

There will be a special meeting of the Elks tonight to arrange for the contemplated trip to Detroit.

It is the L. L. and D. club, and not the S. L. and D. club, that gives a dance at Spence's grove on the 25th inst.

A very pleasant musical and literary entertainment was given last evening at the North Street A. M. E. church.

Strawberry and ice cream festival at Lagonda avenue chapel, to-morrow, Thursday evening. All are cordially invited.

Mr. J. W. Church, of Detroit, a popular traveling man, is at the Arcade.

Church has lots of friends in Springfield.

The Lutheran Sunday school classes of Miss Pettibone and Miss Viola Barr, are picking over on the north side this afternoon.

Mrs. H. L. Hotelick and Mrs. David Coombs, of Chicago, arrived in the city last night to attend the high school commencement.

Evans, Kuntzman & Co. have greatly improved the appearance of their store with a new and pretty design of wall paper.

The high street Christian church will be closed next Sunday, except for Sabbath school, on account of Antioch college commencement.

There will be a meeting of Springfield division No. 4, U. E. K. of P., this Wednesday evening at the armory. By order of A. W. Cook, Sir Knight Captain.

Johnny, the only son of Mr. and Mrs. Simon Cooney, died at 9:30 this morning, aged 2 years and 8 months. Burial from St. Raphael church Thursday afternoon at 3 o'clock.

Two of the most pleasant events of the season were the social and lawn party at the Christian church people at Mr. Gross's residence on south Factory street, and the First Baptist church social last evening.

Mr. J. Henry Gardner, director of the Champion City band, received this morning a present in the shape of a box of ten cigars from his old friend, Mr. M. Ephraim, a prominent wholesale tobacconist of Flint, Mich.

Mrs. G. W. Thompson and daughters, Miss Minnie and Nell, of south Market street, left this morning for a visit to Zanesville, O., and afterward to Baltimore, Md., to spend the summer.

The members of the Springfield Literary and Dramatic club, decide it to be understood that they were not the persons who applied to Chief Ambrose for a permit to sell beer in Spence's grove next Saturday. It was some other club. The S. L. & D. club will, however, give a social hop in the wigwag next Saturday night.

The brakeman on the B. & W. passenger train from the west at 9:55 this morning, had a lively time with the news agent of C. & A. L. train No. 12, which gets in about the same time. The news agent persisted in selling Cincinnati papers on the B. & W. train against the rules of the latter road, and some hot words resulted. Some of the passengers who purchased paper from the boy were strongly inclined to take his part and it looked like fight for a few minutes.

**FATALLY HURT.** With St. Francis' Killed by a Horse. Word was received in the city this morning that Will Still, a 17-year-old boy working on John Venzel's farm five miles north-east of town, was killed in the face by a horse Monday, and terribly injured. All the bones about the nose and eyes are splintered and crushed, and he can not recover. Had the horse been shod, death would have been instantaneous. He is a boy Mr. Venzel has raised.

# WANTED!

To find the man who did not purchase his Springfield Suit of J. W. Phillips that do not want to kick himself now, after learning at what prices he has been, (and is still selling goods, and as to the fitting and making of his garments, there is no one that has turned out better in the city. He always has prided himself in turning his goods up better than any one in the trade for the money. And if you or your friends are still wanting a suit or an extra pair of pants, you would do well call on him before you purchase elsewhere. Do not forget the place, the oldest establishment.

# WATER WORKS.

Annual Report of the Board of Trustees, Submitted to the City Council.

A Resume of the Work of the Year—Running Expenses—The New Supply of Water—Interesting Facts About the Works.

Subjoined is the annual report of the board of water works trustees which was submitted to the city council last night. It contains much interesting matter and will repay a careful perusal.

**WATER WORKS OFFICE.** SPRINGFIELD, O., June 14, 1887. To the Honorable City Council, City of Springfield.

We herewith submit the seventh annual report of the trustees of water works for the year ending April 30, 1887. We have delayed making this report until this date that we might be able to report to you the completion of our new water supply.

**STATEMENT OF CONSTRUCTION FUND.** Expended by Council to April 30, 1887. \$19,067.37. Receipts during year ending April 30, 1887. 2,526.23.

Total cost of water works April 30, 1887. \$47,593.70. **STATEMENT OF OPERATING FUND.** Balance on hand April 30, 1886. \$14,000.00. Receipts during year ending April 30, 1887. 21,755.04.

Total. \$35,755.04. Running expenses and interest. 19,067.37. Balance on hand April 30, 1887. \$16,687.67.

The receipts in excess of the disbursements for the past year is \$9,119.19, an increase of \$1,043.98 over the preceding year.

The item of disbursements includes \$7,000 paid to the bond and interest fund, leaving for running expenses alone, the sum of \$12,116.45, a decrease as compared with last year, of \$895.90.

During the past year the plans for the new water works supply from the "Morris land" as adopted by this board and approved by city council have been carried out and the work completed, and the new system is now in operation as far as permitted under the recent decision of the court in the injunction suit, allowing us to draw from the basin not to exceed 500,000 gallons per day, which is about one third our supply. The supply basin as now completed by the contractors Ryan & Spelley, has realized our most sanguine expectations, and is now filled to the top with beautifully clear and fine spring water. The maximum flow of water into this basin cannot at this time be definitely stated, but from the data obtained from the pumping done by the contractors, during the work of excavating, and taking as a guide the manufacturer's estimated capacity of the pump used, it has been variously estimated at from seven to ten millions of gallons in twenty-four hours.

The pipe connecting the basin with the pump is 30 inches in diameter and has a maximum flowing capacity of four millions of gallons in twenty-four hours. This is nearly three times the quantity now consumed by the city, daily, and undoubtedly could be largely increased by adding the suction of the pumps, if necessary.

The completion of this new system and a full permission to use it will place our water works, as regards water, in excellent shape to supply our citizens with an abundance of good, pure water for domestic purposes, and also an adequate supply in reserve for fire protection. It will also stop the large and constant expense we have been compelled to be continually under in the past, in digging new filtering basins and cleaning off the cemented bottom of the creek, opposite our pumping works, to enable the water to filter from the creek into wells.

The next needed improvement, requiring your immediate attention is a new compound pumping engine, to take the place of the small, high pressure engine now on the east side of the engine room. It is not too small to suitably supply the consumption of water, which fact leaves no other conclusion to be reached, than that a larger engine and pump must be purchased to take its place, as it is absolutely necessary that there be two pumps, either of which is capable of pumping the maximum daily supply in case of the disability of either.

In view of this fact, we therefore recommend that our representative to the next legislature be authorized by your honorable body to obtain the necessary legislation authorizing the city of Springfield to issue bonds not to exceed \$50,000, for the purchase of a five-million-gallon compound engine and other necessary extensions of our works.

The many petitions for water pipes that have been referred to this board and which shows conclusively that there is a pressing demand for the extension of the distributing mains for fire protection, as well as for domestic supply, which cannot be longer overlooked or ignored, and in view of relieving this pressure, we recommend that a tax levy be referred to the voters at the next election, to be used in extending the distributing mains for fire protection, as well as for domestic supply, which cannot be longer overlooked or ignored, and in view of relieving this pressure, we recommend that a tax levy be referred to the voters at the next election, to be used in extending the distributing mains for fire protection, as well as for domestic supply, which cannot be longer overlooked or ignored, and in view of relieving this pressure, we recommend that a tax levy be referred to the voters at the next election, to be used in extending the distributing mains for fire protection, as
